

# Job roles in the manufacturing sector are incredibly diverse

**Your  
passion  
could take  
you just  
about  
anywhere...**

Even making a  
single recreational  
vehicle involves a  
wide variety of skills  
and trades.

IBSA Manufacturing and the Manufacturing Industry Reference Committees are responsible for vocational training qualifications for manufacturing industries.

IBSA acknowledges the financial support received by the Commonwealth to operate as a Skills Service Organisation.
